Release of Liability and Notice of Claim

This is a Notice of Release of Liability and Notice of Claim on **Firearm Senuary Arms AK 47 Model# VSKA Serial# SV7032131** as of January 9th, 2022

On or around January 9th, 2022 I was packing my belongings and requested my firearms from the owner of the house, Locketta Greene, who was holding my firearms for me while residing at her house. Locketta handed me two guns, one of which was not mine as I found out later. I did not pay close attention to which gun she handed me as I was overwhelmed by packing mine and my 3 children's belongings and Locketta was distracting me with frivolous subject matter in an effort to divert my attention away from the guns issue.

On January 16th, 2022 once I was moved into my new home 2500 miles away, I realized that I was given Locketta's 22 instead of my **AK 47. The weight difference is very noticeable if you are working with a clear head.**

I then messaged Locketta and attempted to arrange an exchange through an FFL licensed delivery being as I am a week's drive away from her home. She told me she will not be sending me my firearm as it would inconvenience her, and that it is my own fault I didn't check if it was the proper gun. She is not real concerned about losing her 22 rifle. She then claimed that after 30 days it will be considered abandoned property. I am not abandoning my firearm but in fact would like my firearm back.

Locketta obviously planned out this theft. This is not the first time Locketta has stolen from me. She was paid 2500 dollars to move a friend of hers from New Mexico to Washington and I offered to help not knowing at the time any payment was even involved. Locketta never offered me any of her profit nor offered to help pay for the damage done to my vehicle driving nonstop to her friend's location. I used my own funds to repair my car which cost me over 1300 dollars to get fixed. It is very obvious Locketta has a habit of helping people and profiting from theft. I have seen Locketta commit actions such as this to acquire people's belongings through their hard times and/or moves on a couple different occasions.

I called the Vancouver Police Department on 1/17/2022 and spoke to deputy Mark at 1:37 pm Central, and was advised to write an affidavit as to what happened.

Affiant further sayeth naught
